PROFILE

Front-end developer, proficient in modern web technologies, who specializes in creating user-friendly web applications. Confident user of JavaScript libraries, such as React, TypeScript and jQuery. Great team player focused on delivering efficient front-end solutions and keeping up with the industry trends.

EXPERIENCE

Front-end Developer

April 2023 - February 2024

OOO WEBPOWER

- Enhanced existing functionality and implemented new logic using React and Redux
- Implemented asynchronous action using Redux-Thunk Middleware, such as fetching data from APIs and dispatching actions via API responses
- Integrated and configured Firestore within the project
- Designed forms and set up validation using React-hook-form and Yup
- Collaborated with senior developers to troubleshoot frontend issues
- Worked closely with designers to create pixel-perfect user interfaces from wireframes and mockups

EDUCATION

{ Self-Education
2022 - present

{ Russian Foreign Trade Academy
2014 - 2017, Bachelor's Degree in Foreign Trade Management
